**RASSOULI** is a visionary artist who stimulates creativity in his students by helping them to express their individuality. His style does not focus on what is literally seen by the artist, but by surrendering conceptually to what is felt on a deeper level. Children's Law Center and Rassouli are offering a series of interactive art workshops to current or former foster youth. Students will complete several framed pieces of art, some of which may be eligible for auction at CLC's 20<sup>th</sup> Anniversary celebration.

To attend the art workshops, please complete the attached application or call Patricia Salcido at 323-980-5720.
